

I. KDE Updates

Johnny Collett

- LD Guidance Document delayed because of release of national resource.
- Monitoring Process – districts notified in October. DLS notification will come 2 weeks before a visit.
- KBD approved revisions to accommodations regulation without significant revisions. Now goes through legislative review. Will NOT impact spring 2014 assessment. Document emailed 12/17/13. Posted on GRREC website.
- Johnny talked about regulation change for FAPE to 21 vs through 21. It is a monetary issue to require beyond 21. Due process hearing filed in KY to challenge through 21. Urges school districts to apply LEA policy consistently.
- Concerns noted about mental health provider service documented on an IEP. A cross-agency team has worked in Frankfort to clarify this documentation. LEAs must identify which students are IEP students and receiving mental health services.
- Due Process Work Group to reconvene. Will meet quarterly. LD Guidance Doc to be finalized. IEP Guidance Doc will have no changes for 2013-2014. TA document being prepared in regard to Accommodations. Few changes in Record Review for next year.
- Regional High School Feedback Reports—surveys students after graduation-- to be complete mid-January.
- Program Review Data is posted. K-3 data to be released soon. Pam is working on regional reports.
- Logic Model Data submitted. Report in revision process. Will share in January.
